EXTRADITION.

What Earl Derby Mar to Say in Reply to Secretary Fish-A See Treaty Proposed. The correspondence on the extradition reaty has been published. Earl Derby, his note, says the essential principles f extradition, as practiced by England, are that the person surrendered on an extradition treaty but be tried on no offense except the one for which he is surrendered. This is the proper construction of the truty of 1842. Her majesty's governmed thinks the act of 1870 is important, it without it would maintain the sac position. The government maintains the right of asylum until the criminally, according to the aws of England, hown. This applies imply in the easest political offenses. The great object in requiring evidence s not merely the estallishing of an offense alled by the name specified in a treaty, but the establishing of an offense of that name according totle law of the surrendering country. It is to prevent the urrender on a charge of a crime of an ncertain meaning, and the subsequen rial on facts considered here as estabshing a political offense, and not for the rime for which the surrender was made he surrendering country must have acts to judge whether the offense is po itical. Secretary fish's assurance that no administration dare violate the rights prisoner on one charge and trying him for a political offens is not sufficient, as

Parity Congress

WIND. Row Tormulos Operate. A terrible disastrous storm of wind wept over the Comango valley, in Pennylvania, last week. The day had been oticeable for the number and severity of its thunder storms in the immediate riginity, but about six o'clock in the afernoon it cleared up and the sun came out brightly. A few minutes past six, however, two clouds appeared in the porizon in the west, and increased rapidly in size and grew densely black. They ppreached the village rapidly, and seemed o touch the ground. The sky assumed cellowish east, and for a short time an oppressive stillness prevailed. Presently a cool, stiff wind began to blow, increasing in strength as the clouds drew nearer. When these were within a mile of the place, at a point where a range of hills time many of the inhabitants of the vilage and the outskirts had been flying in of a political asylam by obtaining the side. When the two clouds collided they united into one, which almost in- case in t'olorado, where the ores are ex- ance he stantly became a whirling mass, shaped tremely rich but so much more refractory the attorney-general cannot interfere like a pillar, and which rushed with than those of Nevada that under the old when an offense is emmitted against the great velocity down the mountain side. processes they yielded up only a portion law of one state.
